DESCRIPTION

This modern townhouse was constructed in 2017 by Laurus Homes and is superbly presented with quality contemporary fittings throughout. The position is ideal forming part of a popular residential location just a short distance from the scenic waterways of the Bridgewater canal with a walking/cycling route combining charming sights with plentiful wildlife. The shopping centre of Altrincham is approximately $\frac{3}{4}$ of a mile distance with its highly popular Market Hall which contains a variety of establishments including small independent retailers and informal dining options. Navigation Road Metrolink station provides a commuter service into Manchester and the area is well placed for the surrounding network of motorways. In addition a short distance to the south is John Leigh Park with tennis courts and recreation areas.

The development combines attractive architecture with fashionable interior design and upon entering the feeling of quality is readily apparent. Approached beyond a covered porch the entrance hall leads onto a naturally light dual aspect open plan living space. The fitted kitchen features a range of distinctive units complemented by integrated appliances and opens onto a living/dining area with French windows to the paved rear terrace. In addition there is ample storage provided and a well appointed cloakroom/WC completes the ground floor accommodation.

At first floor level there is a spacious sitting room which may also be used as a substantial bedroom, further double bedroom and luxurious family bathroom/WC. The second floor includes a primary bedroom with Porcelanosa en suite shower room/WC and additional double bedroom with dressing room which is currently utilised as a study.

Gas fired central heating has been installed together with a pressurised hot water system and PVCu double glazing throughout.

The private gardens have been paved for ease of maintenance with a fence perimeter and gate providing access to the rear. Importantly the car park is accessed from Bridgewater Embankment through a remotely operated roller door where there are two allocated underground parking spaces alongside numerous visitor spaces and a specific area for bikes with a lift providing access to ground floor level.
